DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3 and 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Le Moullac (US Patent 3,990,823).

Le Moullac discloses a sectional mold for tire casings. As shown in the figures, the mold comprises lower and upper casings 10 and 11, and a series of movable sectors 13. The sectors 13 are movable on lower casing 10 via platform 20. Tension spring 21 engages a pin at the front end of each platform 20 and biases each sector to its open position with an abutment or stop limiting movement of the sectors in the manner claimed by the applicant.

Allowable Subject Matter

3. Claims 2 and 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
